

# The How of Humor Workshop

Speakers, teachers, and marketers all know that humor gives sparkle and pop to your presence.

But even naturally funny people sometimes wish that they knew the formula behind the comedy to make humor more dependable.

Some people are so afraid of making a mistake that they don't even try to add humor.

Katie Munoz was a reserved, serious, and chronically embarrassed child. She is living proof that HUMOR CAN BE LEARNED, even as an adult.

Katie's workshop, "The How of Humor," explains the secrets of HOW to harness the magic of humor.

Why settle for boring when you could dependably:

- Maximize the humor in your stories
- Avoid the most common joke telling mistakes
- Recover from performance goofs with charm and poise

Amplify your confidence with the can't-miss, humor generating formula, enabling YOU to deliver great humor with confidence every time.
